KING PRISCUS SENDS HIS ANNUAL GREETING

Announces Departure for Pensacola Where
He Will Arrive on Febru-
ary 26.

King Priscus has sent to his loyal
subjects, a DeForest wireless gram an-
nouncing his departure from the pre-
cincts of his past twelve months se-
clusion.

This message is addressed to his
Royal Majesty's Lord High Chamber-
lain De Elag Rennek, and in addition
to the glad tidings of his departure for
his annual visit to his Pensacola sub-
jects, he commands his most obedient
Chamberlain to issue, under the Roy-
al seal, his proclamation to all his sub-
jects who reside at Pensacola and else-

where to be present in person upon
His Majesty's arrival at Palafox street
dock, on board the Royal yacht Ros-
pen on Feb. 26, A. D., 1906, and of his
Majesty's reign, the seventh.

The Lord High Chamberlain is also
directed to acquaint His Majesty's
subjects with the fact that the revels
of his reign will be instituted im-
mediately upon the arrival of the Royal
yacht, and continue unabated until the
cock shall crow for the midnight hour
of Feb. 27th A. D., 1906 and of His
Majesty's reign the VII.

POWERFUL BATTLESHIP LAUNCHED

(Continued From First Page.)

of a new type with a muzzle energy
of 19,568, as compared with the 33,622
of the guns carried in as recent bat-
tleships as the Majestic class an in-
crease in power of 50 per cent. In a
great sea fight the Dreadnought will
be able to discharge every minute ten
projectiles weighing 3,500 pounds with
sufficient velocity to send them 25
miles or to penetrate about sixteen
inches of the hardest armor at a range
of about two miles. Unlike all British
and foreign battleships built in the
past thirty years the new addition to
the fleet will carry no weapon
smaller than the great twelve inch
piece except eighteen three inch quick-
firs for repelling attacks by torpedo
craft.

Biggest Warship Afloat.

She will mount neither 9.2
inch, 7.5 inch nor 6 inch guns, she will
be the biggest warship afloat and she
will have only the biggest and most
powerful guns. The secrets which will
be incorporated in the huge hull are
still hidden but it is known that they
tend to economy as well as efficiency.
The Dreadnought will cost ten per
cent per ton less than recent battle-
ships British built although she will
represent the last word in all details
of her construction. In another re-
spect the Dreadnought will be unique,
she will be the first battleship in the
world to be driven by turbines. These
engines will supply the power for four
propellers, two more than any previ-
ously built British battleship, which
should make her the fastest ship of
her class afloat. Another advantage
of the turbines, as shown by the per-
formances of the Carmania, is that
the gunners will have a steadier deck
from which to handle the guns.

Ready in 12 Months.

The guns, armor, machinery, boil-
ers, etc., are ready to be placed in
the Dreadnought, so there should be
no difficulty in having her ready for
sea in twelve months, when she will
join the Atlantic fleet, based on Gil-
rath, thus being placed midway be-
tween the channel and Mediterranean
fleets. As trouble threatens on the
one side of the other the ships of the
Atlantic fleet are moved, making them
of the greatest use in the time of
war, no matter who the enemy might
be. Writing of this fleet as it will
be when the Dreadnought joins, a
naval expert said: "Nothing as de-
vastating as this concentrated destruction
has ever been conceived in the brain
of man. It is impossible to picture
the result of one minute's well-direct-
ed fire at an enemy's ships, and when
one minute is followed by others the
effect would be too terrible for words,
presuming the gunners get the range
and fire as at target practice. To this
length has the contest for sea power
gone, and this is not the end. For the
time is not far distant when the
British ensign will fly over fleets
and squadrons of Dreadnoughts ves-
sels costing a million and a half stir-
ling or more, each with ten or twelve
12-inch guns, which will engage an
antagonist when three or four miles dis-
tant, and will pour in a succession of
shells each weighing 350 pounds carry-
ing wholesale destruction in their
wake."

Back to the Old Fashions.

"I suppose you were fed off the fat
of the land," said Mrs. Saunders plain-
tively as she set the plate of griddle
cakes before Mr. Saunders the morn-
ing after his return from Boston. "With
Niece Margaret's means, they must
have everything there is going."
"I presume to say there's no lack of
where-withal," said her husband as he
began to pour maple syrup with a la-
sive hand, "but for breakfasts they
had the worst lot of truck ever I saw."
"Wasn't cooked nor a thing done to it,
I expect that fired girl of theirs that
I used to hear falling downstairs about
7 o'clock didn't want the trouble of
starting her fire in a hurry. But I tell
ye when you've had a different kind of
straw filling served to ye for seven
days running, griddle cakes come just
at the right time. Don't take away
that serrup jug yet awhile. It hadn't
soaked in yet all it's a-going to. And
set the doughnuts and the pie and the
biscuits where I can keep an eye on
'em, but ye can remove that glass of
water as far as ye see fit. I've been
starvin' healthy about as long as I can
stan' it."—Youth's Companion.

Eels in Scotland.

Although eels abound in Scotch wa-
ters and are caught in great quantities,
they are not considered fit food there.
No matter how plentiful and how very
fine and large they may be in any dis-
trict of Scotland, no native will eat
one. The objection to the eel is said to
be based on its serpent-like appearance
and the fact that it is not overfashi-
ous as to what it feeds on. Tons of
choice eels for the London market are
taken from streams that are not con-
spicuously free from sewage.

A Safe Opening.

"It does not follow that a safe open-
ing is necessarily a secure sort of busi-
ness," muttered the burglar as he he-
gan his drilling, "especially as one has
to do so much blowing about it."—Bal-
timore American.

Exchanges Closed.

The New York cotton and stock
exchanges and the Chicago Board of
Trade were closed Saturday. These
exchanges will be closed Monday also
on account of Lincoln's birthday.

The Timber Market.

The timber market remains practi-
cally as it was during the week pre-
vious. The demand is strong, prices
ranging from 26 to 27 cents for 30
feet and over and as high as 24 cents
for averages under 30 feet. The mar-
ket is firm, with a good demand, es-
pecially for short averages. The re-
ceipts during the week were about
1,500 pieces from the railroad and
1,000 pieces from Perry Pass. The
supply is still very limited, and there
is no indication of a falling off in
prices.

HERBINE

prompt relief from biliousness, indig-
estion, sick and nervous headaches,
and over-indulgence in food and drink.
G. L. Caldwell, Agt. M. K. and T. R.
18, 1903: "I was sick for over two
years with enlargement of the liver
and spleen. The doctors did me no
good, and I had given up all hope of
being cured, when my druggist advised
me to use Herbine. It has made me
sound and well." 50c. Sold by all

"I'll take it," said Mrs. Richley. "If

"Of course, but—that's rather an
odd request."
"Yes, but I want to deceive our ser-
vant girl."—Philadelphia Press.

THE CLEVELAND GRAYS ARE COMING

Will Spend Some Time Here En-
joying a Trip Upon Bay and
Visiting Navy Yard.

The Cleveland Grays, one of the
most noted military companies in the
north, will arrive here next month on
a pleasure trip, and while the itine-
rary calls for a stay of only seven
hours, it is more than probable that
this will be changed and that the
members of the company will remain
considerably longer.

The company, the members of
which are making a pleasure tour of
the south, is composed of between 175
and 200 men, and a special train, with
dining and baggage cars has been
chartered to make the trip.

The party will arrive here on the
morning of March 5 at 7:30 a. m., and
according to the itinerary will depart
about noon, but inasmuch as there is
a desire upon the part of the party to
visit the forts, navy yard and have a
fish chowder dinner at the life saving
station, it is more than probable that
this itinerary will be changed.

The Louisville and Nashville pas-
senger officials have been notified of
the coming of the party and have ar-
ranged for a large steamer to carry
them out on the harbor trip.

RHEUMATISM

When pains or irritation exist on
any part of the body, the application
of Ballard's Snow Liniment gives
prompt relief. F. W. Sullivan, Prop.
Sullivan House, El Reno, O. T., writes
June 6, 1902: "I take pleasure in re-
commending Ballard's Snow Liniment
to all who are afflicted with rheu-
matism. It is the only remedy I
have found that gives immediate re-
lief." 25c, 50c and \$1.00. Sold by all
druggists.

CATARRH, FOUL BREATH

If You Continually K'hawk and Spit and There is a Constant
Dripping From the Nose Into the Throat, If You Have
Foul, Sickening Breath, That is Catarrh.
CURED THROUGH THE BLOOD BY B. B. B.

Is your breath foul? Is your voice husky?
Is your nose stopped? Do you snore at night?
Do you sneeze a great deal? Do you have fre-
quent pains in the forehead? Do you have
pains across the eyes? Are you losing your
sense of smell? Is there a dropping in the
throat? Are you losing your sense of taste?
Are you gradually getting deaf? Do you hear
buzzing sounds? Do you have ringing in the
ears? Do you suffer with nausea of the
stomach? Is there a constant bad taste in
the mouth? Do you have a hacking cough?
Do you cough at night? Do you take cold
easily? If so, you have catarrh.
Catarrh is not only dangerous in this way,
but it causes ulcerations, death and decay of
bones, loss of thinking and reasoning power,
kills ambition and energy, often causes loss
of appetite, indigestion, dyspepsia, raw
throat and reaches to general debility, idiocy
and insanity. It needs attention at once.
Cure it by taking Botanic Blood Balm
(B. B. B.). It is a quick, radical, permanent
cure because it rid's the system of the poison
germs that cause catarrh. Blood Balm
(B. B. B.) purifies the blood, does away with
every symptom, giving strength to the entire
mucous membrane, and B. B. B. sends a rich,
tingling flood of warm, rich, pure blood to
the paralyzed nerves, mucous membrane
bones and joints, giving warmth and
strength just where it is needed, and to take
their bearing completely restored.
Botanic Blood Balm (B. B. B.) is pleasant
and safe to take. Thoroughly tested for
30 yrs. Composed of Pure Botanic In-
gredients. Strengthens Weak Stomach,
cures Dyspepsia. Price \$1 per large bot-
tle. Taken as directed. If not cured when
right quantity is taken, money refunded.
